National Tree Day **Sunday 1 August**

Planet Ark is calling for volunteers to join the campaign and help plant a million new native trees and shrubs this National Tree Day.

Celebrating its 15th year in 2010, National Tree Day, proudly sponsored by Toyota, sees communities work together to protect their natural environment by planting and caring for native trees and shrubs. More than 15 million seedlings have been planted in the event's history and each year over 300,000 people take part at 3,500 sites around the country.

Schools Tree Day **Friday 30 July**

Each year around 200,000 Australian school students participate in a special National Tree Day event just for kids – Schools Tree Day. It's a great opportunity for children to learn about, and make a contribution to, Australia's natural environment while having fun at the same time.

This Tree Day, all schools and their students are encouraged to get on board with Planet Ark and get their hands dirty!
